Each Horse and Rider Combination may only do one division– fence height
A horse cannot do more than 2 divisions with 2 different riders

Derby- Everyone will get to show in both rounds – first round is a classic round and second round is a handy round. There will be a special High Score award – at judge's discretion after all the divisions are completed

Gambler's Choice- 60 seconds on course to jump as many fences and score points.

Cannot jump any jump more than twice and if the hump is knocked down you may not jump it again.

After the 60 seconds expires you must cross the finish line to get a final time. If there is a point total tie – time will be used to break the tie

You will then have an opportunity to jump the Joker – if you clear it you will receive a 200 point bonus if you knock it down the 200 points will be deducted
